(Where you at)

While you weren't here
My heart longed for you
Now it's bruised, black and blue
But my scarred heart doesn't hurt

So I don't even think about fixing it

Even if it's hard, I'd like to see you in my dreams today (yayaya)
Even from the ends of the earth (yayaya)
If only we can hold hands
Even if there's no tomorrow, I'm alright

I'm wandering here and there, looking for you
I run around, searching but I'm still only in my room
I want you, I want you more every day
I'm looking for you

Where you at
Where you at
Where you at
Where you at
Where you at
Where you at

I feel fine, I feel fine
Every day, I deceive myself
If I can't forget you, I want to remember you
You are a piece of me

Trapped in an endless and narrow tunnel
I can't see anything
My heart is getting colored more and more
Even if I can't reach you with my hands out far
You've already grown so big
Even if you're an illusion, I'll keep chasing

I'm wandering here and there, looking for you
I run around, searching but I'm still only in my room
I want you, I want you more every day
I'm looking for you

Where you at
Where you at
Where you at
Where you at
Where you at
Where you at

Habits really are scary
As soon as I open my eyes, I look for you
I don't want to forget your voice
So I'm following the way you said my name for the last time
