

Make This Last Forever

Number One Gun

This is our time
And part of me is strong
Look at it now
Best part of me is strong

Remember those times we had
Looking out for our dreams
Remember that hole we dug
So low still hoping

(I want to) hold on
(Hold on) to this
(Whatever) brings us back together

(I want to) do what
(Do what) it takes to
(And we can) make this last forever

Oh, make this last forever
Oh, make this last forever oh

We took our best shot
So we all become heroes
It's better than not
Not trying here we go

Remember those times we had
Looking out for our dreams

Remember that hole we dug
So low still hoping

(I want to) hold on
(Hold on) to this
(Whatever) brings us back together

(I want to) do what
(Do what) it takes to
(And we can) make this last forever

Oh, make this last forever
Oh, make this last forever oh

And come alive
Give it time

Hold on to this, bring us back together

(I want to) hold on
(Hold on) to this
(Whatever) brings us back together

(I want to) do what
(Do what) it takes to
(And we can) make this last forever

Oh, make this last forever

Oh, make this last forever oh
Make this last forever
