We're living in a world that's flawed, my brother  
Come with us and we'll show you a brand new world to discover  
Hold on dearly to this unsatisfying world we've been given  
Full of censorship but my GOAT status is living  
Hear that? DAN DAN DAN, the music's calling  
Your mind can't stop the urge for dancing  
So boom boom  
Rise again  
No matter how twisted  
In front of you, a love message appears  
If you're hearing this you must be all ears  
The era is baby blue  
For you, the brightest star  
Clear skies and meditation, we've come so far  
Update to Version\_i  
A type you have never seen, coming your way

I wanna show you so far  
Look above at this perfect shooting star (Shooting Star)  
But my control's still so-so  
Let's create from zero, let's go buddy  
I see you in the crowd, with the black hair so clean  
Illuminating your path and showing you the way  
Changing it all to love

Now, this is my masterpiece, I'm the new GOAT  
Carrying this era's weight Let's go, yo, wo!  
No mistake, this is my answer, my fate

Even getting a taxi is tough for an artist like me  
I need a double bed, you see  
Grabbing the fragmented sky  
Acting cool, the tight suit's a fool  
I wanna do this and that  
But gotta follow the rules  
Hear that? DAN DAN DAN, the music's calling  
Your mind can't stop the urge for dancing  
So boom, boom  
Rise again, no matter how twisted  
I will make my dreams come true  
Only if you let me, let me, let me

I wanna show you so far  
Look above at this perfect shooting star  
But my control's still so-so  
Let's create from zero  
I don't give a bad shh, just true  
Pretending what's right  
In a world so colorful but so white

Now, this is my masterpiece  
I'm the new GOAT  
Carrying this era's weight Let's go, yo, wo!  
No mistake, this is my answer, my fate

Burning out cause this is an endless pledge  
A life that flew, now together in a big reunion  
Flying to unknown realms, it's a new communion
