

## Space

Nuno Bettencourt

I contemplated breathing  
You contemplated leaving  
Misdiagnosed as severed  
We couldn't stop the bleeding

Space  
System failed  
System is overloaded  
Someone shut me down

It's gonna blow  
System is overloaded  
Someone shut me down

24-7 dreaming the gift that keeps on giving  
A life long romance vacation  
Jampacked with suffocation
