

## Devil Metal

### Nunslaughter

Black is my heart  
The battle is near  
Fight for the sound  
Its metal we hear  
Dark is the night  
We live the fight

Blasphemy and agony metal floods my veins  
A symphony of sickness metal is the way  
Devil Metal  
You say you'll help me cause I 'm fucking wild  
I say that I am fine I am the Devils Child  
Devil Metal
