## **Ogrish**

## Nunslaughter

A loathsome crypt defiler Lurk among the tombstones Delightfully plundering graves Feed on corpse and bones

Realize I am ogrish This is what I do When you fucking die I'll do it to you to

Perversely cruel and infernal Satanical wicked thoughts Looting the loam filled burial Devour the repulsive rot

Understand the fiend Grown from a child Taste the dying skin Drives me fucking wild

Melt into the night Headstone ripped Hunger pangs I enter your crypt
