

Take me from my neighbor's knee  
All they ever want is me  
They just got a lot to see  
All they ever want is me

Cause they've got the sun in their eyes  
They've got the wick in their mind  
(Don't you know it matters when you lie)  
(Don't you know it matters when you lie)

?  
Never believing  
Never believing in what I've got

So please  
Take me away from the world  
Never meet anyone uh uh oh  
Going away from the world
