

8AM

NVDES

You did it first on the back seat
Kiss me on the cheek
That was only on the first street
Hitting traffic going downtown
Uber driver sweating
On the lemon girl melt down

Are you the mist to the mystery
Freaky deeky, hide and go seek
Why you playing me?
Take a bite up out the bonbon
Let it come off
Drip drop like a slow song

I need a drag, but I got you
Sipping on my neck on the side
Hands on my jelly thighs
Had my horoscope tell me
I would do it best
If I went with a Virgo or a Pisces

Want you all over me

I'll do anything you want
I'll make spinich with your mom
Mac and cheese with your cause too
I'm a little out of breath
Give me just a sec
Then we'll make it all about you

Nothing better than a game
To keep a good thing entertained
I like it better when you stay
I like you more than any other bae
