

Goodbye Bad Vibes

NVDES

Goodbye bad vibes
Goodbye bad vibes

I say yes to the good vibes
Say goodbye to the bad times
I show up on the bright side
These things I learned in the dark times
Got a taste of the jetset life
Money and fame, that feels nice
Hey, if you don't feel alive
All you gotta do is change your mind

Goodbye bad vibes
Goodbye bad vibes

You like the music I make
You like the drugs that I can take
You're like a tropical wave
Come crashing, crashing over me
I liked it when you rubbed in my face
I'm tripping on the way to Chile
You're making the world so beautiful
Beautiful

Goodbye bad vibes
Goodbye bad vibes

Goodbye bad vibes

I can't stop, ride that wave
Highs and the lows, whatever it takes
I'm charged up like Tesla now
Retro super future sound
You're the kinda music I make
You're the kinda drugs that I take
I can't stop, can't stop
Goodbye, there's only baby

I'm waving
