

Running

NVDES

I got the whole crowd running
I got the whole crowd running
I spent my whole life running
I got the whole crowd running

Fuck a publicist, this shit's a joke
'Cause I got more love on a world star post
Bad motherfucker, American sweetheart
I'm the Andy Warhol of Memart
Lightyear speeds just to make me move faster
Bitch, I'm the puppet and the puppet master

I got the whole crowd running
I got the whole crowd running
I spent my whole life running
I got the whole crowd running

Wait up, wait up, wait up
You better wait up for me
Wait up, wait up, wait up
You better wait up for me
Wait up, wait up, wait up
You better wait up for me

I got the whole crowd running
I got the whole crowd running
I spent my whole life running
I got the whole crowd running

I got the whole crowd running
I got the whole crowd running
I spent my whole life running
I got the whole crowd running
