

both hands up

Nxdia

(I catch myself)
I catch myself watching you studyin' the way you move
All the things you leave out and what you make sure to include

Can't just put both hands up and just say you tried
[?] that's a lie

I wasn't focused now I see the other side

Things [?]
You're shinin' fluorescently
You bring out the worst in me
I wish I were less naive

You're shinin' fluorescently
You bring out the worst in me
I wish I were less naive

[?] suspicions [?] sinkin', but you knew that already
A proposition, new conditions keep your silent hands steady

You're so lovely [?]

You can't just put both hands up and just say you tried
[?] that's a lie

I wasn't focused now I see the other side

Things [?]
You're shinin' fluorescently
You bring out the worst in me
I wish I were less naive

You're shinin' fluorescently
You bring out the worst in me
I wish I were less naive
