

We're poor yeah we're broke
And no one knows what's going on
So I say
Burn it to the ground
Let's smoke 'em out
Until we've found a new way

Do you feel like you know me
What a pointless thing to say

Look down you're getting nowhere
Shark tank & there's no air
Fighting demons, they're filming laughing
Oh, I can't believe you would go there

My first mistake
Hearing you mention
Another thing you hate
You need intervention
You're here to stay
Hey can't you feel it?
There's parts to play
And you're adhering

We're poor, yeah, we're broke
And no one knows what's going on
So I say
Burn it to the ground
Let's smoke em out
Until we've found a new way

There's no point in conversation
They've sat back
Watched our frustration
□□□□ □□□□ □□□□ □□
For you to listen
We'll drag you in the decay

I'm over being over-simulated
Don't you hate it?
Make a difference

And there's nothing anyone could do about it
Honestly I'm so wrapped up in a [?]
I'm not even convinced I can live without

My first mistake
Hearing you mention
Another thing you hate
You need intervention
You're here to stay
Hey can't you feel it?
There's parts to play
