

dopamine

Nxdia

Are you sure you're ok?
You've been acting weird since yesterday
You can say
□□ □□□□□□
□ □□□□□ □□□□ □□
□□□□□□ □□□ □□
□ □□□□□ □□□□ □□□ □□□□□□
□ □□□□□ □□□□ □□□

I leave it, pick it up
Just whenever I feel the need
You make me question what I did
Or what you think of me
Do you think you could ever really see me?
What do you see when you see me

I got what you need
I can sell you dopamine
You think this shit's for free?
It's at the cost of me
I'll be your anything
If it means I'll be just what you're wanting
Light up like paraffin
I can be your anything

Do you think that you can do that for me?
Make a power play of relationships that are closest to me
Words are like a track on a CD
You burn it on me
Burn it on me
(Yeah)
Is there a way that
I can prove it to you?
Calling back to backtrack cause you're upset too
Facts get fact checked
They're less than perfect
Or plainly untrue

I got what you need
I can sell you dopamine
You think this shit's for free?
It's at the cost of me
I'll be your anything
If it means I'll be just what you're wanting
Light up like paraffin
I can be your anything

I got what you need
I can sell you dopamine
You think this shit's for free
It's at the cost of me

Do you think that you can do that for me?
Wonder if you noticed
You would if you ever asked about me
Leaving when it's easy
I'm bored of you repetitively

Relying on me
(Yeah)
Is there a way that I can give it to you
It's so hard to know
What we've been talking 'bout
Feelings are your own
Don't let it get you down
□□□□□□

I got what you need
I can sell you dopamine
You think this shit's for free?
It's at the cost of me
I'll be your anything
If it means I'll be just what you're wanting
Light up like paraffin
I can be your anything
