

Nothing At All

Nxdia

Sometimes I look down at my arms and realise I'm real
I look up at the stars
Thinking how small I feel
Feel like I'm learning everything and still know nothing at all
Ah ah ah

I like the gold I see when she's got the sun in her eyes
Corner of your mouth goes down
When you're telling a lie
Feel like a creep for people watching I'm a fly on the wall
Ah ah ah

I've been in
Conversations just wondering
If everyone knows something
I don't think I keep up with you all
Just wanna feel involved (um)

Tell you something true
I'm at a loss
My brain feels like brand new
No extra cost
Mish 3arfa ay haga
Wa da bayen
I'll be honest I kinda love it
Oh I know nothing at all

Nanana nothing at all
Nanana nothing

Don't bother asking if I've seen that show you know I've not
I think you've said this before
But I know I forgot
It's kinda funny when you tell a joke I don't even clock

Somehow I'll make up the difference
Head empty come join the resistance
Pretty smart for a dumb guy
Wonder how and why
I've made it the distance uh

There's things I sacrifice
But they're not wrong or right
I hope I keep feeling like
I'm learning all the time

Basta3agil 3aiza afham wa at3alem
Bas 7asa en
I am just running
In place 'til I get past the spot
Avoid the brain rot

Tell you something true
I'm at a loss
My brain feels like brand new
No extra cost
Mish 3arfa ay haga

Wa da bayen
I'll be honest I kinda love it
Oh I know nothing at all

Nanana nothing at all
Nanana nothing
