

No
No, some, some
No
No, some, some
No
No, ah, ah

No way (No)
No way (No, some, some)
No way (No)
No way (No, some, some)

I seen things that'll make a man crazy
But that don't faze me, no, I can't go within
No way, no way
So much pain running through my veins
I know they wanna break me if they go out that way
No way, no way, no way

No, I can't do the things that I used to do
No, I can't move the same way I used to move
No, I know I can't do the things that I used to do
No, I can't move the same way I used to move

No way, no way
No way, no way

Somebody, pray for me. Devil, get away from me
Open up the gates, let me go back to a safe place
Somehow, someway
Money and fame got 'em crowded 'round the table
But who gon' stay when you ain't got a dime to your name?
No way, no way, no way

No, I can't do the things that I used to do
No, I can't move the same way I used to move
No, I know I can't do the things that I used to do
No, I can't move the same way I used to move

No way (No)
No way (No, some, some)
No way (No)
No way (No, uh, uh)
