I'm so I'm so I'm so I'm so high
I'm so I'm so I'm so I'm so

Jesus turned water to wine we're together hii ni sign baby let's not
waste it (ouh)
Must be divine intervention we won't do too much explaining (ouh)
Dealing with pressure just fine I'm chillin' baby
No complaining (ouh)
I'm here for a good time no drama baby
Let's get faded
Stress goes away when I'm lighting up
Same place again like where lighting struck
Never too much ah ah just enough
Loud in da air yah that might be us
Ouh! Happiness
Light up again celebrate success
Ouh!
Me and my friends
Or just me, myself and you!

Cos everything gets better when I'm high
Everywhere we go except Dubai
All my cloudy days and lonely nights
Bye bye

Cos everything gets better when I'm high
Everywhere we go except Dubai
All my cloudy days and lonely nights
Bye bye

Don't do too much explaining
Sit back and just let life get entertaining
I'm so I'm so I'm so I'm so high
I'm so I'm so I'm so I'm so

On my birthday
Cos everything gets better when I'm high
Even the worst day
Everywhere we go except Dubai
In the morning
All my cloudy days and lonely nights
Bye bye

Cos everything gets better when I'm high
Better when I'm high
Everywhere we go except Dubai
All my cloudy days and lonely nights
