

# Wine

Nyashinski

On my life  
It's how you and I  
See eye to eye  
If I don't show I'm excited then I lie  
So much pressure let me ease it  
Si una whine on me  
Girl you're the one  
Chilling by the water  
Body, face, elite  
Not a scratch on her  
And they talk too much  
And I just wanna touch  
Feels like falling in love  
Can't pretend like we're not trying  
Like we're not flying high

What's on your mind  
Showing you what's on mine  
Saying you hot so am I  
Showing you why  
Showing you why, I  
Oh darling

(Oh darling)  
Could this be?  
Be the wine  
Telling me you could be just mine  
This chemistry's fucking with my mind right now  
Oh girl this could be the very last time  
Only speaking with our eyes  
Later we wanna reverse time I know

I know somehow tunaelewana mama

Oh darling  
You must be the best I had  
I know I love me some me  
Too much time away  
From you  
I just can't take

(Siko surprised  
Na blessings  
If it just sound right we listen  
Top down, high, the window wide open  
My person with)

What's on your mind  
Showing you what's on mine  
Saying you hot so am I  
Telling you why  
Telling you why, I  
Oh darling
