Diving Deep

Nylon Beat

The lagoon on moon light
Increased by the blue night
We're diving deep

Hear the whale calling
While we are to fall in
We're diving deep

The reef makes it shadows
As two floating lovers
Make love under seas

Starfish and sirens
Witness the silence
When we're diving deep

Like flying forever
We're breathing together
As we're diving deep

The waves under water
Will bring us much deeper
When make love to me

We're diving deep
Diving so deep

The reef makes it shadows
As two floating lovers
Make love under seas

We're diving deep
Diving so deep
