

One Word

Nylon Jail

I have to say the last thing
I have to say one word
Before in hell I will be burnt
Before I lose my mouth
I lay down my guns calmly
I won't be afraid
Please just give me one last chance
To have a chat with her

It makes my mind a stormy night
It makes my heart feel pain
Just like slat in open wounds
Like a cigarette scar
Let me say it finally
Let me see the end
Life used to be like rainbows
Good times will come again

I spent
Millions of years
Waiting for this day
Face to face with you
I don't know what to say
I found all I need to know
Looking in your eyes
Now I have to roam the prairies
You are too proud to cry
So...

Millions of years
Waiting for this day
Face to face with you
I don't know what to say
So...
