

Gotta Be Wrong Sometimes

O.A.R.

Baby, don't you wait that long
You told me underneath our song
But, there's something bout the way you move
Yeah it gets to me like a melody
And I don't wanna wait all night
'Cause soon it's gonna pass me by

I only wanna make you smile
Let me get to you, like I always do
And show me how you really feel
Make it all go and disappear
We can dance into the night
Come together and we'll make it right
Come together and we'll make it

We got more than a lifetime
To make it all feel right
So don't apologize,
You got to be wrong sometimes
We got more than a lifetime
To live inside these lines
We were right all along
You got to be wrong
You got to be wrong sometimes

Every little thing you say
Got me lifted and I'm on my way
Baby, come with me
You don't have to stay
Yeah, follow me like a memory

Show me how you really feel
And make it all go and disappear
We can dance into the night
Come together, and we'll make this right
Come together and we'll make it right
We got more than a lifetime
To make it all feel right
So don't apologize,
You got to be wrong sometimes
We got more than a lifetime
To live inside these lines
We were right all along
You got to be wrong
You got to be wrong sometimes

Maybe the world will let us stay
Give us back what it took away
Or maybe I'm just high, so high
Somewhere out there in between
Being wrong and being clean
I see it all inside your eyes

We got more than a lifetime
To make lose our minds
I'm ready to fall
We got to be wrong

You move like a melody
Everything they've got you've seen
And that's why you keep
Coming back to me, for so long
We got to get wrong

You move like a melody
Everything they've got you've seen
And that's why you keep
Holding on to me
For so long
We got to be wrong sometimes
We got more than a lifetime
To make it all feel right
So don't apologize
We got to be wrong sometimes
We got more than a lifetime
To live inside these lines
We were right all along
You got to be wrong
You got to be wrong sometimes
