

In the Clouds

O.A.R.

My head is always in the clouds
So high, I'm not coming down
My head is always in the clouds
I'm not coming down
I love it

If I'm gonna be in your halo
Take a little ride down a rainbow
I don't wanna leave this place
Never gonna leave this place, no
I just wanna be where the light go
Everything I needed, I got though
I don't wanna leave this place
Never gonna leave this place, no

I'm never coming down
I'm lost
I'm not coming home
I'm lost
I'm not coming down

My head is always in the clouds
So high, I'm not coming down
My head is always in the clouds
I'm not coming down
I love it

I'm a take my time on the way home
Leaning on my arm out the window
I don't wanna leave this place
Never gonna leave this place, no
Everything I needed, I got though
I just wanna go where the road go
I don't wanna leave this place

(adsbygoogle = window.adsbygoogle || []).push({});
Never gonna leave this place, no

I'm never coming down
I'm lost
I'm not coming home
I'm lost
I'm not coming down

My head is always in the clouds
My head, always floating
I'm never coming down
My head, always floating
In the clouds
My head, always floating
I'm lost
I'm not coming down
My head, always floating
My head is always in the clouds

My head, always floating
In the clouds

My head, always floating
In the clouds
My head, always floating
In the clouds
I 'm never coming down
My head, always floating
I 'm lost
I 'm not coming home

If I 'm gonna be in your halo
Take a little ride down a rainbow
I don 't wanna leave this place
Never gonna leave this place, no
I just wanna be where the light go
Everything I needed, I got though
I don 't wanna leave this place
My head is always in the clouds
