

Nightlight

O.A.R.

Nightlight
No, I won't sleep tonight
You're safe with me
When the shadows dance outside your door
I will never let you go

With darkness all around you
Shadows, they surround you
Wonder how they found you, girl
Staying up at nighttime
Running through your own mind
Darling, it's a lonely world
Where nothing ever keeps you safe
And nothing takes the pain away
I'll stay with you, stay with you, baby

I'll be your nightlight
No, I won't sleep tonight
You're safe with me
When the shadows dance outside your door
I will never let you go
Nightlight
You can breathe tonight
Inside your dreams
I'll protect you, know you're not alone
And I'll never let you go

When sirens in the morning come without a warning
Put my arms around you, girl
I'll hold you in the sunshine, high above the flood line
Darling, it's a lonely world
I swear I'm gonna keep you safe (Keep you safe)

Tomorrow isn't yesterday
I'll stay with you, stay with you, baby

I'm gonna be your nightlight
So you can sleep tonight
You're safe with me
When the shadows dance outside your door
I will never let you go
Nightlight
You can breathe tonight
Inside your dreams
I'll protect you, know you're not alone
And I'll never let you go

(Ooh)
I will never let you go
(Ooh)
No

I swear I'm gonna keep you safe
Taking all the pain away
I'll stay with you, stay with you, stay with you, baby

I'm gonna be your nightlight
So you can sleep tonight (Tonight)
You're safe with me
When the shadows dance outside your door
I will never let you go
Nightlight
You can breathe tonight
Inside your dreams
I'll protect you, know you're not alone
And I'll never let you go

(Ooh)
I will never let you go
(Ooh)
