

OH MY!

O.A.R.

You couldn't see through the smoke if you started a fire
Feeling like every breath is just fanning the flame
Isn't it funny how long that it took me to find ya
It only took half a second to make me forget

But you took my heart I could fly away
If it it falls apart, it's dangerous love, let's do it again
But your skin so soft, got a diamond face
But I'm not gonna make it

(Oh my) I got the feeling, hope it never goes away
Baby, all I know is I can't let you go
(Oh my) I got the feeling that you want to make me stay
Baby, all I know is I can't let you go (Oh my)

Can we get into the water, with you'll I'll float away
Feel the current gettin' stronger
We can make our great escape
Did I wait to long, did I fly away
If it it falls apart, it's dangerous love, let's do it again
And your skin so soft, got your diamond face
But I'm not gonna make it

(Oh my) I got the feeling, hope it never goes away
Baby, all I know is I can't let you go
(Oh my) I got the feeling that you want to make me stay
Baby, all I know is I can't let you go
(Oh my, oh my, oh my)
(Oh my, oh my, oh my, yeah)

Can we get into the water
Feel the current gettin' stronger
Can we get into the water, with you'll I'll float away
Feel the current gettin' stronger
And we can make our great escape

(Oh my) I got the feeling, hope it never goes away
Baby, all I know is I can't let you go
(Oh my) I got the feeling that you want to make me stay
Baby, all I know is I can't let you go (Oh my)

Yeah (Oh my)
(Oh my) Whoa, whoa
(Oh my) Yeah
(Oh)
