

## After the Lights

O-Town

You say it's all about the game  
The rules you're gonna follow  
And the rules you're gonna break  
And I say you got too much on your mind  
If you're ready to unwind  
Let me show you a good time

So hit up your friends  
And tell them to tell their friends we're ready to go  
To the front of the line, the top of the world  
I think you already know

Right here, right now it's everything  
I'm gonna make it worth remembering  
I wanna hear you all get up and sing  
We'll still be going after the lights go out  
We ain't got anywhere to be  
We got the night on lock with a master key  
We're gonna throw it down 'til we can't see  
But we'll still be going after the lights go out  
Oh oh, after the lights go out  
Oh oh, after the lights go out  
Oh oh, after the lights go out  
Oh oh, after the lights go out

Some days I just really need a break  
I don't know how much I can take  
Till I gotta get away  
So tonight I'm gonna get just what I need  
I'm gonna change the scenery  
Some fresh air for me to breathe

So hit up your friends  
And tell them to tell their friends we're ready to go  
The rest of your life's beginning tonight  
I think you already know

Right here, right now it's everything  
I'm gonna make it worth remembering  
I wanna hear you all get up and sing  
We'll still be going after the lights go out  
We ain't got anywhere to be  
We got the night on lock with a master key  
We're gonna throw it down 'til we can't see  
But we'll still be going after the lights go out  
Oh oh, after the lights go out  
Oh oh, after the lights go out  
Oh oh, after the lights go out  
Oh oh, after the lights go out

It's a black out, lights out, party just begins  
It's your light skinned dancing man back with his friends  
It doesn't matter how much money you spend  
Because experience is greater than wealth  
It's simple, just do what you wanna  
You should live life, that's right, do what you wanna  
I got the night on lock with the master key

We doing anything, everything passionately, c'mon

Pour the wine and get lit  
Pour the wine and get lit  
Pour the wine and get lit

Right here, right now it's everything  
I'm gonna make it worth remembering  
I wanna hear you all get up and sing  
We'll still be going after the lights go out  
We ain't got anywhere to be  
We got the night on lock with a master key  
We're gonna throw it down 'til we can't see  
But we'll still be going after the lights go out  
Oh oh, after the lights go out  
Oh oh, after the lights go out  
Oh oh, after the lights go out  
Oh oh, after the lights go out

Pour the wine and get lit  
Pour the wine and get lit  
Pour the wine and get lit  
We'll still be going after the lights go out  
Hey!
