You make it all worthwhile to us

You live for your toys, even though they make noise

F

Or even tried a trampoline

'Cos it won't be long before everyone is gone

Sailed out to sea, your mum you and me

You swam the ocean like a child

Life around us was so wild

Thank you for your smile

You make it all worthwhile to us

I'm singing this song for you and your mum that's all

And it won't be long before everyone is gone
