

## Waiting for the Rapture

Oasis

I still don't know what I was waiting for  
A big love to fall down from the sky  
She took my hand and picked me up off the floor  
She put an apple in my eye

I said I'm tired  
Come get me off the merry-go-round  
I'm wired  
Come feed me and then bring me down

She come up to me  
I can't remember what she said  
Cause I was in a trance and I forgot it all  
I bet you don't know about all that  
Revolution in her head  
She make a lover seem so magical

She said I'm tired  
Come get me off the merry-go-round  
I'm wired  
Well heaven must of sent you  
To save me from the rapture... yeah

I'm tired  
Come get me off the merry-go-round  
I'm wired  
Come feed me and then bring me down
