

## Where Did It All Go Wrong?

Oasis

You know that feeling you get  
You feel your older than time  
You aint exactly sure  
If youve been away a while

Do you the reciepts  
For the friends that you buy  
And aint it bittersweet  
Youre only just getting by

But I hope you know  
That it wont let go  
It sticks around with you until the day you die  
And I hope you know  
That it's touch and go  
I hope the tears don't stain the world that waits outside  
Where did it all go wrong?

And until youve repaid  
The dreams youve bought for your lies  
Youll be cast away  
Alone under stormy skies  
Alone under stormy skies

But I hope you know  
That it wont let go  
It sticks around with you until the day you die  
And I hope you know  
That it's touch and go  
I hope the tears don't stain the world that waits outside  
Where did it all go wrong?

But I hope you know  
That it wont let go  
It sticks around with you untill the day you die

And I hope you know  
That it's touch and go  
I hope the tears don't stain the world that waits outside

But I hope you know  
That it wont let go  
It sticks around with you untill the day you die

And I hope you know  
That it's touch and go  
I hope the tears don't stain the world that waits outside

Where did it all go wrong?
