## **Boiling Point**

## **Obituary**

Boiling Point What no shame Broken Dreams What no shame

I have come for you Since I was to die Boil to unknown sights Make believe broken dreams Broken dreams

Boiling point What no shame

Point of no return
Fears and dreams disguise
Lifes noose
Can I
Face the chair
Face the chair

Face the chair Boiling point What no shame

Falling to darkness
Where the sky turns red
Turns into stark features
Letting you wish you would live
You wish you would live

Boiling point What no shame Boiling point Broken dreams What no shame
