

Drenched

Ocean Alley

Holding on to yesterday's sun
Soak it all through my head
I keep the music on, but the windows shut
I need a little moment to reflect
When summer's done, I'll board a western flight
Soak me in a raging swell
And all along, just should of took a walk outside
I need a little sunshine in my space

Living in the moment like when we were kids
We wasn't scared of falling
Spinning round in circles till it makes me sick, that was it
I wanna go and drench myself in times like this
When it's bliss

Moving on, now yesterday's done
The rain is soft on my head
I turn the music off, and forget myself
I feel I gotta call on my friends
When I've become, a little hard to bite
Tell me I'm not doing well
And all along just should of had a look inside
To find a little sunshine in my space
So I can change
So I can change

Living in the moment like when we were kids
Wasn't scared of falling
Spinning round in circles till it makes me sick, that was it
I wanna go and drench myself in times like this
When it's bliss

Living in the moment like when we were kids
We wasn't scared of falling
Spinning round in circles till it makes me sick, that was it

Living in the moment like when we were
Spinning round in circles till it makes me
Wanna go and drench myself in times like this

Wanna go and drench myself in times like this
