

## Perfume

Ocean Alley

All the colours in the room  
The smell of lavender perfume  
And even now with night so young babe  
A perfect moment here so soon

Heavy hearts all through the night  
The floor is yours so make a move  
Even now with lights down baby  
I'm feeling closer to you

Cause ooh, now you're all in my head  
Love isn't heartbreak  
Feeling your world change  
Touching the first time, baby

All my love is here to stay  
You in your silky lingerie  
Days alone in the misty mountains  
Amongst the glasses of rosé

Dancing slowly in the blue  
Laying with you in the nude  
Hope to do this forever baby  
Keeps me closer to you

Cause ooh, now you're all in my head  
Love isn't heartbreak  
Feeling your world change  
Touching the first time  
Touching the first time  
Love isn't heartbreak  
Feeling your world change  
Touching the first time, baby

Cause ooh, now you're all in my head  
Love isn't heartbreak  
Feeling your world change  
Touching the first time  
Touching the first time  
Love isn't heartbreak  
Feeling your world change  
Touching the first time baby
