

Sleep On It

Ocean Alley

Did it feel so good?
Yeah yeah yeah yeah
Did it feel so good to be
Exactly where I'm not supposed to be right now?

When paradise was all in your head and
When paradise was all in your meds
And the doctor told you and I
Said it's gonna be fine

Cos you take what you want
You take what you need
Take what you please from me
And you take what you want
And you take what you need

Did it feel so good?
Yeah yeah yeah yeah
Did it feel so good to be
Exactly where I'm not supposed to be right now?

When paradise was all in your head and
When paradise was all in your meds
And the doctor told you and I
Said it's gonna be fine

Cos you take what you want
You take what you need
Take what you please from me
And you take what you want
And you take what you need

You take what you want
You take what you need
Take what you please from me
And you take what you want
And you take what you need

Cos you take what you want
And you take what you need
And you take what you please from me
Cos you take what you want
And you take what you need
