

Beers

Ocean Grove

Not wholesome no more, like I never had a choice in this
In unfamiliar bliss and now I'm burning this all
Not gonna break for your sake, but I'll never escape that

We've taken a great thing descended into madness
I try to find the words inside and all I find is sadness
We've taken a great thing descended into madness
I've tried to find all those words inside and now all I see is
sadness

No, I can find no other good in this
No, I can find no other good in this
No, I can find no other good in this
No, I can find no other good in this

We've taken a great thing descended into madness
I try to find the words inside and all I find is sadness
We've taken a great thing descended into madness
I've tried to find all those words inside and now all I see is
sadness

Turncoat
I wish you would show
You push, then you leave me alone
Mutant
You have to atone
Push and you pull, then you leave me alone

No, I can find no other good in this
No, I can find no other good in this
No, I can find no other good in this
No, I can find no other good in this

(In this, no good in this)
It's harsh on the throat and the world would soon know that you
're a
Scrounger
You'd take them all
You'd take them all (scrounger)
You'd take them all
I tell you right now, you'd take them all
(You'd take them all)
(You'd take them all)
(You'd take them all)
I tell you right now, you'd take them all
