

# BORED

Ocean Grove

I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me

Here we are  
Twistin' dark with no one  
Peek inside and pray to God that  
Danger's on the way back in

So let down  
Holding hands with no one  
Bleeding sounds of all the ways  
In which they'll never come around  
Nothing stays the same

I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me  
I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me

Fear in odds  
Keeps them straight (the dull ones)  
They will try to play the game  
But never learn to turn it on

Same old sounds  
Casting shame on the sunrise  
Saturation finds a way to soak  
The seeds that let us down  
Nothing stays the same

I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me  
I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me  
I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me  
I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me

Turn the lights off  
Never left home  
Couldn't get up  
I shoulda let go  
Losing myself  
Is all I know  
(I'm coming down)

I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me

I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me  
I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me  
I'm bored right out of my brain  
Nothing's changed  
Don't waste your time on me
