

FLY AWAY

Ocean Grove

Fly away
Come on and take it back
Take it
Come on and take it back
Take it
Take it motherfucking back
Take it
Come on and take it back
Take it
Come on and take it back

Take it back to the underground
You know nothing's been the same since you ain't been around
It's the sound of us falling off the map
Blasting off in the sky, landing back on the multitrack (Multitrack)
Welcome to the land of honey
We hunt the dragons, you kick back and stack the money
New blood and it's all just cream
Pull the chord and they unravel at the seams

What's going on inside of me?
Don't be surprised, there's a side you ain't seen
Feel the adrenaline in the spot now?
Two nights in Prague that we just shut down (Shut down)
There's one thing that we can agree
I know you and you never knew me
I know you and you never knew me
I know you but you never knew me

Lucid in the flow
Everybody that you know
Are you with me when I fly away?
Lucid in the flow
Everybody that you know
Are you with me when I fly away?

Come on and take it back
Take it (Fly away)
Come on and take it back
Take it (Fly away)
Come on and take it back
Take it (Fly away)
Come on and take it back
Take it (Fly away)
Come on and take it back

Why can't you see our frustration?
Colours as they bleed
Think you're consumed by the fury
While it's still surfacing
And if you wake up, wake up, wake up, wake up
Every motherfucker flies away
Until you wake up, wake up, wake up, wake up
Forget what you have until it's gone

Lucid in the flow
Everybody that you know

Are you with me when I fly away?
Lucid in the flow
Everybody that you know
Are you with me when I fly away?

Lucid in the flow
Everybody that you know
Are you with me when I fly away?
Lucid in the flow
Everybody that you know
Are you with me when I fly away?

Come on and take it back (Are you with me?)
Take it (Fly away)
Come on and take it back (Are you with me?)
Take it (Fly away)
Come on and take it back (Are you with me?)
Take it (Fly away)
Come on and take it back (Are you with me?)
Take it (Fly away)
Come on and take it back
