Come on in, let's play
Hit me up, let's get it started (hit me up)
Come on in, let's play
Hit me up, let's get it started (hit me up)

Come on baby, get a taste of me
Hit it once and you will never leave
I, got what you need
I, can make you bleed
Wanna see your body on the floor
Gimme something, just a little more
I just need to taste your skin
Come on baby, let me in, yeah

When you act like that, it drives me mad
Don't stop, don't stop now

Come on in, let's play
Hit me up, let's get it started (Come on and let's play)
Come on in, let's play
Hit me up, let's get it started (Come on and let's play)

You never hit me up
Yeah, you never hit me up, uh uh
If I could, I would
But I can't get a moment with you
You never hit me up
Yeah, you never hit me up, uh uh
