

One time for the bass to make you go  
One time for the bass to make you go  
One time for the bass to make you go

Everybody looking at us like we're strangers  
A syncopation to our step but who could blame us  
Rewind the tapes and see what you can savour  
Dip in your finger, taste the new flavour

Can you believe he's not a cyborg?  
With the scarface, long hair, one ear, big hits  
Can you believe he's not a cyborg?  
With the big bass, hot riffs, big spitter, fat sticks  
Listen up because attention flees  
The last track was a test indeed  
So, loud mouthing, bitter, lost faith in us  
Give 'em one song now they never want to play with us  
Again we ask are you with it?  
The Odd World is spinnin', and we're right here within it  
Again we ask are you with it?  
Get your neck in check - right now you 'bout to feel more

I can feel the floorboards shake  
A familiar tune creeps down my neck  
And I will change for us, instead  
'The Familiar Junkies' bang their heads

One time for the bass to make you go  
One time for the bass to make you go  
One time for the bass to make you go

Can you believe he's not a cyborg?  
No time for safety, no flaws contain me  
Can you believe he's not a cyborg?  
No spawn of fate, see I was born to break free  
Repetition isn't it for me  
The vibrations are bound to please  
Said it from the start, this is who we are  
Bounce off the walls, FEEL THE POWER!

Get your neck in check - right now you 'bout to feel it come

I can feel the floorboards shake  
A familiar tune creeps down my neck  
And I will change for us, instead  
'The Familiar Junkies' bang their heads

I can feel the floorboards shake  
A familiar tune creeps down my neck  
And I will change for us, instead  
'The Familiar Junkies' bang their heads  
'The Familiar Junkies' bang their heads  
'The Familiar Junkies' bang their heads

One time for the bass to make you go  
One time for the bass to make you go  
One time for the bass to make you go
