

NOISE

Ocean Grove

Wake up, go to bed
Coz I don't give a shit and I don't really like you
Wake up, turn around
Coz I don't have the time to spend on someone like you

All I hear is noise
I can live without it if I want to
I can live without it for the moment
I never really ever wanted it
Oh, I can live without it
I can live without it

Break up, start a band
Coz you're not meant to sit and sell a pretty line through
Danger, wait a sec
What about the 10-year plan to settle down soon?

All I do is say yes sir to you
I know it makes you wet

All I hear is noise
I can live without it if I want to
I can live without it for the moment
I never really ever wanted it
Oh, I can live without it
I can live without it

All I do is say yes sir to you
I know it makes you wet
But if I keep writing songs like this
You won't see me again

All I hear is noise
I can live without it if I want to
I can live without it for the moment
I never really ever wanted it
Oh, I can live without it
I can live without it

All I hear is noise
I can live without it if I want to
I can hear your bullshit under water
I never really ever wanted it
Oh, I can live without it
I can live without it
