

RAINDROP

Ocean Grove

Every day I stand alone
Catching raindrops from my own eyes
Every day I stand alone
Catching raindrops from my own eyes
Drown myself again
Drown myself again
Drown myself again
All I wanna do is cry
All alone, I'm all alone again

Now you need not to say
More than 10 years to the day
Hit the line, now stay with me
Warm embrace: the colour green
What, what, what, what, what do you say?

Every day I stand alone
Catching raindrops from my own eyes
Every day I stand alone
Catching raindrops from my own eyes
Drown myself again
Drown myself again
Drown myself again
All I wanna do is cry
All I wanna do is cry

You need not to say (Every day)
More than 10 years to the day (Catching raindrops from my own)
Hit the line, now stay with me (Eyes)
Warm embrace: the colour green
What, what, what, what, what?
You need not to say (Every day)
More than 10 years to the day (Catching raindrops from my own)
Hit the line, now stay with me (Eyes)
Warm embrace: the colour green
What, what, what, what, what do you say?
