

SILENCE

Ocean Grove

Owe it to the silence
And then you wade outside
And then you go outside
Owe it to the silence
And then you wade outside
And then you go outside

You don't even know our shit?
Get with the times
The pressure is high when lonely
El oh el
Ooo, la la la
We're so fly
I don't see any you talking
You just stepped on greatness
DJ spin it, are you with it?
The ODDWORLD is here
It's getting boring
Waiting for the noise to drown

Owe it to the silence
And then you wade outside
And then you go outside
Owe it to the silence
And then you wade outside
And then you go outside

You just stepped on greatness
DJ spin it, are you with it?
The ODDWORLD is here
El oh el
Ooo, la la la
We're so fly
I don't see any you talking
You just stepped on greatness
DJ spin it, are you with it?
The ODDWORLD is here
It's like you're waiting on the world to change
It's like you're waiting on the world to change

Eyes watch the son from the ceiling
News in, what, you've been listening?
They cost us two years of our lives
We do our best when we do what we wanna

Eyes on the fools with no feeling
Someday you'll be the ones missin' it
Say what you want, we'll get on with our lives
We do our best when we do what we wanna

Owe it to the silence
And then you wade outside
And then you go outside
Owe it to the silence
And then you wade outside
And then you go outside

You just stepped on greatness
DJ spin it, are you with it?
The ODDWORLD is here
El oh el
Ooo, la la la
We're so fly
I don't see any you talking
You just stepped on greatness
DJ spin it, are you with it?
The ODDWORLD is here
