

# Superstar

Ocean Grove

She's a record over the back fence type  
(I can't get enough of this)  
Just a single play, aphrodisiac  
(I take you in)  
This life is a motion picture  
All the people they want to be with ya  
She's a record over the back fence type  
(I take you in)

Yes it is I, the greatest alive  
You caught me you taught me, you kept me inside  
Yes it is I, the greatest alive  
You met me, you kept me, you taught me to fly  
Breaking ceilings against my head  
I can take it, it's alright  
Come with me now, and we'll go all night, all night

Girl, I didn't know that you could move like that  
Glasses on, got the hair tied back  
And even if I knew I couldn't tell you how  
She does those certain things to my brain  
I didn't know that you could move like that  
Glasses on, got the hair tied back  
And even if I knew I couldn't tell you how  
She does those certain things to my brain

Meant to be, flip phone fantasy  
Got my sights on the one, I don't wanna leave  
She's my stoned little pixie  
Love butterfly, come lounge with the real thing  
Got a bit of a taste for this thrill  
Set a bit of a pace for my feel  
No time for the basic, don't sweat it  
Let me see your hands, it's the best bit

Come fly with me  
In ecstasy  
Come fly with me  
And you will see

Girl, I didn't know that you could move like that  
Glasses on, got the hair tied back  
And even if I knew I couldn't tell you how  
She does those certain things to my brain  
I didn't know that you could move like that  
Glasses on, got the hair tied back  
And even if I knew I couldn't tell you how  
She does those certain things to my brain

And even if I knew I couldn't tell you how  
She does those certain things to my brain
