

We Do

Ocean Park Standoff

We spend our weeks like weekends
Nights last for days
Got an appetite that is feeding
It's not going away

Heading for disaster
Living by the skin of our teeth
Begging faster, faster
We don't break, but we bleed

Run red lights
Getting out of our minds
We do, we do
Pedal to the floor
Screaming out, "we want more!"
Cause we do, we do

All the way to sunrise
And we do, we do
Turn the bass loud
Till the bottles break now
We do
Yeah, we do it cause it feels good

We fall, but we fly higher
Brush the dust away
Not sleeping cause we ain't tired
Going out in flames

Heading for disaster
Living by the skin of our teeth
Begging faster, faster
We don't break, but we bleed

Run red lights
Getting out of our minds
We do, we do
Pedal to the floor
Screaming out, "we want more!"
Cause we do, we do

All the way to sunrise
And we do, we do
Turn the bass loud
Till the bottles break now
We do
Yeah, we do it cause it feels good

We do it cause it feels good, yeah
We do it cause it feels good, yeah
We do it cause it feels good, yeah
We do it cause it feels good, cause it feels good

Legends live forever, but that ain't we
We just follow moments out of your dreams
On the edge of never, falling between
All of your maybes are just maybes

Legends live forever, but that ain't we
We just follow moments out of your dreams
On the edge of never, falling between
All of your maybes
Away we go
Yeah

Run red lights
Getting out of our minds
We do, we do
Pedal to the floor
Screaming out, "we want more!"
Cause we do, we do

All the way to sunrise
And we do, we do
Turn the bass loud
Till the bottles break now
We do
Yeah, we do it cause it feels good

We do it cause it feels good, yeah
We do it cause it feels good, yeah
We do it cause it feels good, yeah
We do it cause it feels, do it cause it feels good
We do it cause it feels good, yeah
We do it cause it feels good, yeah
We do it cause it feels good, yeah
We do it cause it feels, do it cause it feels good
