

Better Days

Ocean Sleeper

Find me in better days
When hope in life meant more to me
I'd leave me too, just fade
Let me whither away
Say it over, and over
I was never enough
Yeah I know, yeah I know
That I've fought way too long
Find me in better days
Bring life back to me

I guess the hardest part
Is accepting the heart you hold
Will be the one you break
This time I can't look past
I was always the only one
Bearing your mistakes
What happened to golden days?
Why does it feel like I threw them away?
Still stuck in my old ways
Bring life back to me

Find me in better days
When hope in life meant more to me
I'd leave me too, just fade
Let me whither away
Say it over, and over
I was never enough
Yeah I know, yeah I know
That I've fought way too long
Find me in better days
Bring life back to me

I'll let your words rip me apart
While I say nothing
Forget me, forget the past
Inside and out I'm empty

Find me in better days
When hope in life meant more to me
I'd leave me too, just fade
Let me whither away
Say it over, and over
I was never enough
Yeah I know, yeah I know
That I've fought way too long
Find me in better days
Bring life back to me
