

Cold

Ocean Sleeper

I won't fight back
I know you like that
I decided
I love this nightmare

Maybe you like this
Maybe you forget
Maybe you see something in me that you won't always regret
Maybe you like this
Maybe you forget
Maybe you see something in me that you won't always regret

Maybe you see something in me that you won't always regret
Maybe you see something in me that you won't always regret
Maybe you see something in me that you won't always regret

I won't fight back
I know you like that
I decided
I love this nightmare

I won't fight back
I know you like that
I decided
I love this nightmare

Keep looking through me like I'm somebody you've never known
Tell me I'm the reason your love is so cold

I won't fight back
I know you like that
I decided
I love this nightmare

Keep looking through me like I'm somebody you've never known
Tell me I'm the reason your love is so cold

Maybe you like this
Maybe you forget
Maybe you see something in me that you won't always regret
Maybe you like this
Maybe you forget
Maybe you see something in me that you won't always regret
