

Heaven

Ocean Sleeper

Do you hope that we could all die alone
Fall into the light
Hoping that you'll pray for my bones
Could be my only shot

Heaven isn't listening
Every day I feel so down
Choked the faith right out of me
Dying to repent but the words won't come out

I want it to hurt like you love me to death
I'm dying to feel anything

Do you hope that we could all die alone
Fall into the light
Hoping that you'll pray for my bones
Could be my only shot
Save yourself all alone for the next life
Coulda been saved but blinded by the good life
Hopelessly you'll pray for my bones
Could be my only shot

Heaven isn't mind made for me
A million ways I'll show you how
Lost the faith I'll never need
Tryna just repent but the words won't come out

I want it to hurt like you love me to death
I'm dying to feel anything

Do you hope that we could all die alone
Fall into the light
Hoping that you'll pray for my bones
Could be my only shot
Save yourself all alone for the next life
Coulda been saved but blinded by the good life
Hopelessly you'll pray for my bones
Could be my only shot

Tell me the reason I'm not worth saving again
I wanna hurt like you love me to death
Drowning in regrets, I love the taste of the sin
I wanna hurt like you love me to death

Always be ashes, destined for dust
I will not die living in lies
I hope you burn with the rest of us
Always be ashes, destined for dust
I will not die living in lies
I hope you burn with the rest of us

Burn!
I will not die, living in lies
I hope you burn like the rest of us
I will not die, living in lies
I hope you burn!

Do you hope that we could all die alone
Fall into the light
Hoping that you'll pray for my bones
Could be my only shot
Save yourself all alone for the next life
Coulda been saved but blinded by the good life
Hopelessly you'll pray for my bones
Could be my only shot
(Hopelessly you'll pray for my bones
Could be my only shot
Hopelessly you'll pray for my bones
Could be my only shot)
