

Killing Me

Ocean Sleeper

(It seems like everything is burning around me)
(It seems like everything is, it seems like everything is)

I think it's time we admit
That things will never change
That everything was meant to work out this way
I've lost my place in this
Still lost in the same old questions
If ignorance is bliss
Why am I hating it?

(It seems like)
It seems like everything is burning around me
You left me here drowning
It's killing me, it's killing me
It feels like everyday is burning around me
I'm trapped and you can't see
It's killing me, it's killing me

What do I make of this?
Did I create this distance?
If ignorance is bliss
Why am I hating it?
Prove to me I'm worthless
Strip my spark away
How could this mean anything
When your comfort's in my pain?
Break me down, break me down
Because you love the way it feels
Break me down, break me down

(It seems like)
It seems like everything is burning around me
You left me here drowning
It's killing me, it's killing me
It feels like everyday is burning around me
I'm trapped and you can't see
It's killing me, it's killing me

Why does it always feel
Like I'm alone in this
You're like some sick addiction
That I can't seem to quit

(It seems like everything is)
It seems like everything is burning around me
You left me here drowning
It's killing me, it's killing me
It feels like everyday is burning around me
I'm trapped and you can't see
It's killing me, it's killing me

(It seems like everything is burning around me)
(It seems like everything is)
(You left me here drowning)
(It feels like everyday is)
(It's killing me, it's killing me)

(It feels like everyday is burning around me)
(I'm trapped and you can't see)
(It's killing me, it's killing me)
