

Maybe Death Is All I Need

Ocean Sleeper

Maybe death is all I need!

What's the point of me living now
Drowning in apathy I can't get out
Dead trapped inside my self again (always waiting)
Dead broken down till nothings left

I could die here while I'm waiting for something to change
Am I searching for the reasons that I feel this way
And I'll keep waiting for the day but then it never came
Maybe someday I'll see maybe happiness ain't meant for me

What's the point of me living now
Drowning in apathy I can't get out

Under shame that never leaves
Maybe death is all I need

Maybe death is all I need!

I could die here while I'm waiting for something to change
Am I searching for the reasons that I feel this way
And I'll keep waiting for the day but then it never came
Maybe someday I'll see maybe happiness ain't meant for me
I could die here while I'm waiting for something to change
Am I searching for the reasons that I feel this way
And I'll keep waiting for the day but then it never came
Maybe someday I'll see maybe happiness ain't meant for me

Maybe death is all I need!
