

## Out Of Sight Out Of Mind

Ocean Sleeper

This disease will defeat us 'til we fall  
So when did my head cave in?  
Spiralling deeper and deeper to this hell  
What makes a mind rot this way?  
We talk of change but it's never coming

Out of sight, out of mind  
Just let me fall behind  
I was the reason all along  
I am the reason things go wrong

Out of sight, out of mind  
These thoughts inside they crush  
Was I wrong all the time?  
Show me I'm worth thinking of  
I'm alright, I'm just fine  
Just let me fall behind  
I was wrong, you were right  
Show me I'm worth thinking of

I'm just fine  
I'm just fine  
Show me I'm worth thinking of  
I'm just fine  
I was wrong, you were right  
Show me I'm worth thinking of

End in all, these thoughts are circling, my feet are hanging  
Off the edge, I'm a mess, this time it's more than just the  
Alcohol, this feeling's never ending, I will hold my  
Loneliness, before I hang from it  
This won't be the day that takes me  
I'm still holding on, please don't leave  
This won't be the day that takes me  
I'm still holding on, please don't leave
