Ocean Wisdom

I see them from here
Trespassers beware
Got one in the
Got on in his leg
Push man off the edge
Take man off the ends
Make blood run like
That's that river...

I just faced my fear
Ain't no wasted tears
I'll stay out their way
Wont bait up affairs
Raise your glass and cheers
She thinks that I care but
When she makes it clear
I'm straight up them stairs
Last night she was fucking me the moments that we shared
Next day we're professional let's make it not be weird
They know this my game
How can it be theirs
I been had it up for years
Your just pulling up a chair
She want a monthly cheque
Oh shit that just got me scared
Looks sweet in Givenchy dresses
She wanting nothing less
I'm bout to take you places baby
I'll keep you fucked and fed
Yeah I think that should be the meaning when they say fnf
Six hours left to make that party who's fixing up my suit
Sickening to think these niggas lying I'm gonna live my truth
I'm gonna make my move big bread changing up my mood
Wanna race in the horses shoes
