

Fools

Ocean Wisdom

Yeh yeh yeh yeh yeh yeh yeh yeh yeh

I'm not around Fools

I'm not around them

And ever since 21 uno I had to ball without them

That's why my hot tub in the backyard got a water fountain

That's why my super car in the drive two hundred thousand

When you're doing it

And they say they are, you doubt them

See me, I'm doing it

Like I say I am, I'm out here

Come around

Come around here

Come see the sights

Don't fuck about here

How my mind so strong

And these weak mind man walk round so cocky with it

Don, I couldn't fathom for a second

How they waddle with it thinking that

Walking with a bop like they all proper with it

Uh

Should've kept it in your locker with it

'Cause you drop a lyric and there ain't nobody fucking with it

And to the motherfuckers that ain't fucking with it

All I need's a middle finger, I don't need another digit

Cool bananas, you my brother, innit

Getting jelly from you hear me spitting

You another cynic to the supersonic shit

Spitting like you never did it

Even if you wanted to, you never running with it

Style unmatched

Tecky teckers

Tricky teckers

Trecky trekkers

Never trekking, even tracking the location of my levels

Never woulda if you coulda, you defeated, you disheveled

From the moment that you put me as a rival, you will rebel

'Cause you never wanna wrestle in my league at any level

Relegation revelation

You ain't dancing with the devil

Any thought or hesitation, let me know that you a petal

But you acting like a nutter like you listen heavy metal

You can mosh and act a fool

But actual badman are mental

Ain't a game, it ain't a joke, our evilness ain't incremental

From the moment that it's on, our calm persona temperamental

No surprise I prolly watch shit straight off in a rental

That's what I try keep telling 'em

I got the venom in the tongue

Anomaly, it's evident

I'm not benevolent but understand that I see everything

I'm on a level that them little man are never leveling

It's like to me they got impediments

I'm so ahead of 'em

I dunno why they think they'll be remembered

I'm forgetting 'em already
They was never really with it, what you reckon then
I reckon in a second I can spin 'em, end up deadin' 'em

I said it with chest, I can't take it back
I meant what I said, I can't take it back
He got too gassed, he can't take it back
I spend me a cheque and I make it back
He said he outside, he can't make it back
She wanna come ride, I might break her
I pick her up, I can't take her back

Yeh yeh yeh yeh yeh yeh yeh yeh

I'm not around Fools
I'm not around them
And ever since 21 uno I had to ball without them
That's why my hot tub in the backyard gotta water fountain
Why my super car in the drive two hundred thousand
When you're doing it
And they say they are, you doubt them
Me, I'm doing it
Like I say I am, in out here
Come around
Come around here
Come see the sights
Don't fuck about here
Uh
Uh
Uh
Better not fuck about
Run up on a rapper at his show and knock him out
I'm tryna batter body matter, doesn't matter 'bout the clout
I made a hundred thou an hour in a drought, shut your mouth
Fools

Infinitesimally small
The recipe to my perfectionist levels are too complex
So any regular average intellect end in a drool
Lack of intellect rendered you ineligible
If you was eligible then it wouldn't be illegible
And you could level up, but your mind isn't even that level-able
'Cause your flow is abominable, man and mine is incredible
Give me the medal, the gold top-notch, highest level, the pedestal
Everybody should remember the levels, too many shit rappers making a record
It's kinda shit how the scene has developed
Some little pricks that ain't even that relevant in the motherfucking scheme
of the whole thing
I double up my money, then I double up the rum in the cup
And I'm with a ting giving her something to suck
And she know it's imminently coming as she run for the bus
I got a delivery coming, and it ain't nothing but nut
Still thinking that they leveling up, never been us
Never been around the elegant stuff, still at their mums
Still chatting 'bout what they never done
Never been on
Or a don
Or a Dan
Can't ever tell a man that I'm wrong, you
