

# Life

## Ocean Wisdom

That's life, death, right, left  
Keep on steppin' if they ain't draw the weapon  
Then fight dem, 140 steppin' or old school finessin'  
Teach lessons  
Who's better on the mic, then?  
Man brought the legends  
They brought the pepper and  
That brought my peppering to light, then  
I killed with the flow  
Oh what you know  
The rest is all me and all that  
That's life, death, right, left  
Keep on steppin' if they ain't draw the weapon  
Then fight dem, 140 steppin' or old school finessin'  
Teach lessons  
Who's better on the mic, then?  
Man brought the legends  
They brought the pepper and  
That brought my peppering to light, then  
I killed with the flow  
Oh what you know  
The rest is all me and all that

Uh, let me go. let me go  
Goin' till I'm gone  
I'm feelin' vibrant on my own  
Coolin' on my J's  
How you know my name?  
How you know we valuing the life we got the same?  
You don't really want it  
I'm seeing where ya spraying  
I'm hearing what you're doing  
I ain't feelin' what you're saying  
You ain't Super Saiyan. why you kamekameha-ing?  
Why they gettin' angry while I'm smiling, kinda laughing?  
All your mommas bawlin'  
Cryin' in the garden  
Doin' moves around her you don't even beg your pardon  
I find that appalin'  
All your mommas bawlin'  
You ain't got no drive that's why your screechin' and your stallin'  
Woke up in the mornin'  
Why's she lookin' at me?  
Yeah we roll and stumble we ain't shootin' out Apaches  
Still she got the backy  
Rollin somethin' high talk  
Tryna find myself I'm freely searchin' for survival  
You look in my eyeball  
See I'm not a sinner  
See I'm just a product of being told I'm a winner  
Now I eat a dinner with a smile up on my face  
And you can tell by all the gravy I been grinding on the stage  
The way I sang it, wrote it  
Mandem, know it's  
Natural what I'm doing it's actual and if I quote it  
I could bust your flow and probably know it's bent on this [?]  
I could see a journey probably know and spare focus

I could check your medal probably notice bare focus  
But I roll up in your arm and beddas broken [?]  
(Huh? Uh uh, uh uh)  
They mandem like I'm finally on the roads  
And now they wanna come and dip up in the Ocean  
Different when I flow this  
Somethin' switchin' on the coast  
And if I trip into your hole  
Just know I did it with cahonas (was an accident)  
Did it with a passion  
I got women sunnin' somethin' suckin somethin' [?]  
I got different kinda patterns when I run it  
Little man you soundin' certain man  
But son ain't me ain't somethin' runnin'  
I will run him down the road and Forrest Gump him  
These fickle fassies wanna fondle with the flow  
But really know when they can't grope it like I done it  
Potent when I sung it  
You gon' notice when I summit  
Am I too focused for the jokers  
Know I notice when they comin'  
Swear the way I get it, sang it  
Pack it just getting vanished  
It's factual when I push it  
It's actual when they yam it  
Ca' I'm on it, rollin'  
Somethin', potent  
Catch me if you can I ain't actin' I don't condone it  
But I live it, know it  
Lift it, grow it  
Casual when I bar. it's impractical when you spoke about your

That's life, death, right, left
